EDUCATION

National College of Business Administration & Economics (NCBA&E)

Lahore, Pakistan

BS Software Engineering

Aug 2024 – Present (Expected: 2028)

Relevant Coursework: Relevant Coursework: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Testing & Quality Assurance, Web Technologies, Database Management Systems

WORK EXPERIENCE

Freelance Frontend Developer

January 2022 – Present

Self-Employed

Lahore, Pakistan

- Delivered 5+ end-to-end web projects covering requirements gathering, development, Netlify deployment, and post-launch testing — reducing client-reported bugs through iterative QA cycles.
- Maintained GitHub repositories using feature-branch workflows; resolved 20+ UI bugs through systematic testing with browser DevTools, cutting regression issues across releases.
- Built and tested 3 React.js applications (Resume Builder, Text Editor, and Travel Booking Site) using functional, regression, cross-browser (Chrome/Firefox/Edge), and responsive UI testing across 320px–1440px+ viewports.
- Integrated and validated REST APIs using Postman; documented test cases and tracked issues via GitHub Issues and Jira-style workflows.
- Completed 100+ hours of self-directed learning in React, JavaScript ES6+, Tailwind CSS, and web QA best practices.

KEY ACHIEVEMENTS

- Designed, built, and deployed 3 production-ready web applications with integrated QA processes, achieving consistent cross-browser compatibility across Chrome, Firefox, and Edge.
- Resolved 20+ documented bugs across multiple projects using structured manual testing, DevTools profiling, and React Profiler — improving performance and usability.
- Strong knowledge of Software Testing & Quality Assurance concepts, including SDLC, STLC, test case design, bug reporting, and manual testing methodologies.

SKILLS & INTERESTS

Technical Skills: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Git/GitHub, REST APIs, Postman, Browser DevTools, Jira, VS Code, npm, Netlify

QA & Testing: Manual Testing, Functional Testing, Regression Testing, UI & Cross-Browser Testing, SDLC/STLC, Test Case Design, Bug Tracking

Languages: English (Proficient), Urdu (Native), Punjabi (Proficient)

Interests: Software Quality Assurance, Frontend Development, Problem Solving, Continuous Learning, Open Source
